

TA-208A POWER SUPPLY

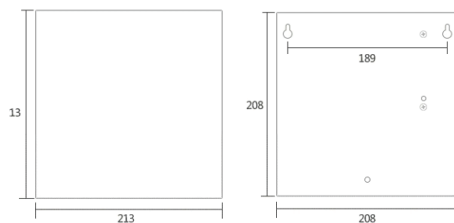

Input Voltage: AC 180-220V 50 Hz
Output Voltage: DC 12V 3A
Material: Metal Iron
BATTERY BACK UP: 12V 7A

Specifications

This 12v power supply can reduce the load of access controller and save wiring, reducing the hidden trouble. This best power supply can control various types of electric locks. Based on a delay control circuit, the lock time of this access control power supply can be 0-15 seconds. After the input is set up, the electric lock could be opened directly with this 12v power supply. This best power supply endows an automatic protection function. This 12v power supply could avoid the unexpected situations to ensure safety.
